

Brass

The luster of brass draws the eye to something of great personal value. Copper and zinc join together as an alloy to create brass. Their proportions can be varied depending on the luster required. It's a mix of two to make one.

Brass is beautiful as well, adding a brightness and a gold-like appearance to everything it touches. The durability of a brass urn makes it timeless; its luster makes it memorable.

Odessa Brass with Bronze Finish
QB513L

7 3/4" Dia. x 9 7/8" H
Volume: 200 Cubic Inches

Odessa Brass with Pewter Finish
QB512L
