

Glass Memory Chests

Glass

The Glass Memory Chests can be used as a chest for keepsake items or can be used as an urn for a standard temporary container. These urns are designed and made of glass using one of the oldest forms of glass making – glass fusion.

The process begins with pieces of glass that are made molten with torches and kilns. Through a series of firings, a new piece of glass is formed into its ultimate shape. Metal trim and lead-free soldering are used to complete these elegant Glass Chests. Because the glass pieces are hand-mixed and fired, each one will be slightly unique.

Glass and Crystal Urns

These beautiful Artisan Glass urns are hand blown and are perfect for Home, Niche or Scattering. Because these urns are handcrafted, the pattern and hue may vary slightly to give each urn a distinctive look. The Crystal urns are individually handcrafted in 24% leaded crystal. The inside of each urn is painted to increase the attractiveness of the cut crystal.
