

Memorial pendants first became popular during the Victorian period as a way to celebrate the life of a cherished friend or loved one.

# Special Memories

Special Memories lockets and pendants can be worn as a traditional necklace or as a bracelet. Each piece is hand-crafted from either 14K yellow gold or stunningly elegant sterling silver.

Some of the collection allows for the placement of an image of your loved one to be set into it. Most can be engraved with a small personalized message or can hold cremated remains, a lock of hair or flower petals. There's no better way to keep a precious memory close to your heart forever.
